

Furniture & Interior designer

I was born in Brescia on April 27, 1985.

Since I was young I have been creating spaces, settings, houses fully furnished with bizarre decoration and I have been fantasized about beauty, cosiness and colors. I graduated in Scenic Design at the Academy of Fine Arts of Brescia. After my graduation, I started working for some interior designer workplaces. My creations are inspired by the things: I love, a trip or a memory. Sometimes it all originates from the reprocessing of old ideas, some other times it is just the desire of explaining the things I am fond of.
